

WELCOME

to the

We are an Independent Grain Distillery based in Battersea, London.

We mill, mash, ferment and rectify 100% English **wheat** to make a 96% neutral grain spirit which we use as the base for our spirits (no mean feat!)

We currently have two core spirits in our range, a gin and a vodka...

renegade and **BALLER**

We also have seasonal release small batch spirits such as our Sloe & Damson gins.

We are **VERY** close to releasing the third spirit in our core range (top secret) and down the track many more exciting spirits including a rum and a whisky!

14 botanicals - **juniper** of course being predominant!

But what makes Renegade different is the fact we also have a **big focus on green, leafy botanicals** such as **bay leaf, sage, cardamom** and **winter savoury**.

A hint of warmth and spice is attributed to the addition of a West African pepper called **Grains of Paradise**.
